THE UNIVERSITY OF SOUTH FLORIDA
AND THE SCHOOL DISTRICT OF MANATEE COUNTY

THIS AGREEMENT is made and entered into on this 1st day of July, 2019 by and
between University of South Florida Board of Trustees, a public body corporate on behalf of
its Sarasota-Manatee campus ("USFSM"), and the School District of Manatee County
("SDMC"), a political subdivision of the State of Florida, for the purpose of creating a dual
enrollment program to provide educational opportunities for eligible and qualified public high
school students in Manatee County. This Agreement shall serve as the Dual Enrollment
Articulation Agreement pursuant to Section 1007.271, Florida Statutes. USFSM and SDMC are
each a “Party” and collectively the “Parties”

I. TERM

This Agreement shall be effective as of July 1, 2019 (the “Effective Date”) and shall continue
until June 30, 2020, unless terminated or amended pursuant to the provisions in this Agreement.
This Agreement may be renewed on an annual basis by mutual written consent. If this
Agreement is to be renewed, it shall be reviewed on an annual basis at least ninety (90) days
prior to the beginning of the USFSM fall semester to ensure continuing compliance with state
law and applicable dual enrollment requirements.

II. DUAL ENROLLMENT PROGRAM

A. Dual enrollment is a program in which eligible secondary students are permitted to enroll
in post-secondary courses that are creditable toward the high school diploma and an
associate or baccalaureate degree. Early admission dual enrollment pursuant to Section
1007.271, F.S. is not a part of this Agreement or available between the parties.

B. Dual enrollment college level courses are intended to simultaneously fulfill high school
curriculum requirements, meet university general education/liberal arts requirements, and
satisfy prerequisites for the major or count as elective credit.

C. Courses. Dual enrollment courses will be available on the USFSM campus, the USFSM
online educational platform and on selected individual high school campuses in Manatee
County. Courses are subject to resource availability including staffing, credentialing and
other constraints. Dual enrollment courses taught on a high school campus may not be
combined with any non-college credit high school course and only USFSM dual
enrollment students may be scheduled into dual enrollment courses taught on the high
school campus. Dual enrollment courses will be taught either by USFSM faculty or by
SDMC instructors credentialed by USFSM.

Courses eligible for the dual enrollment program must meet the following criteria:
a. Listed within the statewide course description and numbering system on the current State of Florida Dual Enrollment Course – High School Subject Equivalency list and fall under the subject areas of English, mathematics, science, foreign language, social studies and electives. Eligible courses for the 2019-2020 academic year are outlined in Appendix A;

b. Fulfill the requirements of an associate or baccalaureate degree;

c. Apply toward the student’s high school diploma and replace high school courses in the same discipline that otherwise would have been taken; and

d. Approved by SDMC and USFSM as an acceptable dual enrollment course.

Courses are not eligible for inclusion in the dual enrollment program if the course contains college preparatory instruction and other forms of pre-collegiate instruction or developmental education, as well as physical education courses that focus on the physical execution of a skill rather than the intellectual attributes of the activity and courses not specified in the State of Florida Dual Enrollment Course – High School Equivalency List.

Courses outlined in Appendix B require either prerequisite work and/or higher standardized test scores.

D. Credits. All college courses taken pursuant to the dual enrollment program must be three (3) college credits or more. Dual enrollment courses and high school credit earned are designated by the Florida Department of Education’s statewide course numbering system and the State of Florida Articulation Coordinating Committee as published in the Dual Enrollment Course-High School Subject Equivalency List. SDMC shall assign high school credit upon successful completion and accept the post-secondary courses toward meeting requirements of Section 1003.43, Florida Statutes.

Students will be limited to one (1) to three (3) courses within the dual enrollment program per semester. No student may earn more than a total of eighteen (18) total credit hours of general education on a high school campus.

will be re-calculated by USFSM only taking into consideration courses in English, mathematics, science, foreign language, social studies and electives. As calculated by USFSM, honors classes will receive an additional weight of 0.5 and AP, AICE, IB and college courses will receive an additional weight of 1.0. USFSM has the sole discretion to adjust the re-calculation of GPAs, with timely notification to SDMC;

Appendix D

DUAL ENROLLMENT TRANSFER GUARANTEES

The dual enrollment program is an opportunity to take challenging courses and accelerate education opportunities. With hundreds of dual enrollment courses available, there is great potential for further engage and motivate students to pursue academically rigorous courses that capture their interests. Successful completion of dual enrollment courses allows eligible high school students to simultaneously earn high school core or elective credit and postsecondary credit toward a career certificate, an associate degree, or a baccalaureate degree.

Dual enrollment courses will receive the same weighting for the high school grade point average as Advanced Placement (AP), International Baccalaureate (IB), and Advanced International Certificate of Education (AICE) courses. In addition, dual enrollment courses that meet core state university admission requirements in English/Language Arts, Mathematics, Natural Sciences, Social Sciences, or World Languages shall receive the same weighting as AP, IB, and AICE courses in the calculation of the high school grade point average used for admission decisions.

Students should understand, however, that dual enrollment courses are college-level courses, and the amount of work and rigor of content in dual enrollment courses may be much greater than in high school courses. In addition, dual enrollment course grades become a part of a student's permanent college transcript and are calculated into the student's permanent postsecondary grade point average. Poor performance in dual enrollment courses may affect university admissions and financial aid. It is important to do well in these courses to realize the benefits of dual enrollment.

Course selection is important for the dual enrollment student since different programs at a college require different courses to complete the certificate or degree. By choosing courses wisely, students can reduce the time it takes to complete a program after high school graduation. Some students are even able to complete their college certificate or degree at the same time they graduate from high school. Students who don't know what they want to study in college should consult with an advisor to consider focusing on completing general education requirements in communications, mathematics, social sciences, natural sciences, and humanities. All degree programs require general education coursework and, while there is some variation from institution to institution, there are general education courses that are common among most, if not all, institutions.

Florida dual enrollment college credit will transfer to any Florida public college or university offering the Statewide Course Numbering System course number, and must be treated as though taken at the receiving institution. However, if students do not attend the same college or university where they earned the dual enrollment credit the application of transfer credit to general education, prerequisite, and degree programs may vary at the receiving institution. Private and out-of-state colleges and universities may or may not grant college credit for courses taken through dual enrollment.
